

Exercise OpenOffice - 10 points

Create a small OpenOffice (.odt) document (about 2 pages) that represents the core of an academic paper (title, author, abstract, table of contents, introduction, main section, conclusion, references) using the "default style" with the following elements:

- sections and subsections
- text
- formulas
- bulleted and enumerated lists
- a picture (drawn with xfig and imported as .png, see Exercise Drawing)
- table of contents and bibliography (both automatically generated)

Export the office document as pdf.

Copy the odt and pdf files as OO-ex.odt/pdf to your CBWE lecture home directory under
exercises/oo-drawing/

Deadline: January 31, 2010.
