Formal Methods in Software Development: Evaluation of Course Software

If you did not use a particular software, do not give marks (please explain in the comment why you did not use it).

RISCAL

	Very Low	Low	Medium	High	Very High
Ease of Use	○	○	○	○	○
Learning Success	○	○	○	○	○

Optional Comments (what was good/what was bad):

RISC ProofNavigator/ProgramExplorer

	Very Low	Low	Medium	High	Very High
Ease of Use	○	○	○	○	○
Learning Success	○	○	○	○	○

Optional Comments (what was good/what was bad):

JML/OpenJML Runtime Assertion Checker

	Very Low	Low	Medium	High	Very High
Ease of Use	○	○	○	○	○
Learning Success	○	○	○	○	○

Optional Comments (what was good/what was bad):

ESC/Java2

	Very Low	Low	Medium	High	Very High
Ease of Use	○	○	○	○	○
Learning Success	○	○	○	○	○

Optional Comments (what was good/what was bad):

OpenJML Verifier

	Very Low	Low	Medium	High	Very High
Ease of Use	○	○	○	○	○
Learning Success	○	○	○	○	○

Optional Comments (what was good/what was bad):

KeY

	Very Low	Low	Medium	High	Very High
Ease of Use	○	○	○	○	○
Learning Success	○	○	○	○	○

Optional Comments (what was good/what was bad):

Spin

	Very Low	Low	Medium	High	Very High
Ease of Use	○	○	○	○	○
Learning Success	○	○	○	○	○

Optional Comments (what was good/what was bad):
