Nr.	Dates	Topic of the Presentations	Literatures	Assigned to
1	We 22.05.2013	**AWT with examples+ Event Handling with examples+**	**http://docs.oracle.com/javase/tutorial/index.html**	**Salama Baher Sabry Anis**
		Applets (parameterization, appletviewer, security restrictions)+examples		
2	Th 23.05.2013	**Networking (Overview, URLs, Socket, Datagram,**	**http://docs.oracle.com/javase/tutorial/index.html**	**Chen Yu-Siang**
		Socket Client-Server examples)		
3	Th 23.05.2013	**Version Control Systems and the Subversion (SVN)**	**http://svnbook.red-bean.com/**	**Reisenberger-Hagmayer Klaus**
		(Concepts, how to use, with example: list, checkout, diff, add, stat, commit,		
		update, log, delete, revert, file operations,truck, branches, tags, merge, etc.)		
4	We 29.05.2013	**Unified Modeling Language (UML) I.**	**http://devmentor.org/references/uml/uml.php**	**Demissie Fisseha Wondimu**
		(History, Concept, Diagrams:		
		Structures: attribute, class, component, interface, object, package		
		Relationships among others: aggregation, association, composition,		
		dependency, multiplicity, inheritance)		
5	We 29.05.2013	**Unified Modeling Language (UML) II.**	**http://devmentor.org/references/uml/uml.php**	**Lin Shu-Jheng**
		(Behavioral: Activity, Sequence, State Machine)		
		(Installation ArgoUML, How to use,		
		Create a class diagram about our Stack package (Exercises 4, 5 and 6)	**http://argouml.tigris.org/**	
		(see the exercises) ending with exceptions, present it)		
6	We 05.06.2013	**Design Pattern I.**	**Ask the lecturer for the book**	**Reisner Werner**
		(Concept, structural patterns among others: adapter, bridge,		
		facade, proxy, +examples)		
7	We 05.06.2013	**Design Pattern II.**	**Ask the lecturer for the book**	**Chang Ti-Ho**
		(Behavioral patterns among others: interpreters, observer,		
		visitor, strategy, template, +examples)		
8	Th 06.06.2013	**Apache Ant + Junit**	**http://ant.apache.org/**	**Hussein Ahmed**
		(+the combination of them)	**http://junit.sourceforge.net/**	
9	Th 06.06.2013	**Introduction into Android Programming**	**http://andbook.anddev.org/**	**Putra Jeffry Andhika**
		Processing the first part of the andbook		
10	We 19.06.2013	**Web Services (Concept, SOAP, WSDL, UDDI, examples, etc)**	**http://docs.oracle.com/javase/tutorial/index.html**	**Eraliyev Javlon**
		Web Services with AXIS (installation, usage, examples)		
			http://en.wikipedia.org/wiki/Web_service	
11	We 19.06.2013	**Java3D**	http://java3d.java.net/	**Pavlík Jakub**
		(Litrerature search and processing the topic by herself)	http://www.java3d.org/tutorial.html	
		Examples
